**Sheer
Driving Pleasure**

Gears: 6. Boredom: 0.

The marathon sprinter.

A sporting arrangement –
each axle carries an equal
share of the load.

Aggressive power coupled
with defensive strength.

Enjoy the view. You won't
see it much when you drive.

This co-driver knows everything.
Even how to be silent.

This is how much we've invested.

The pleasure you get from driving a BMW is the result of fine engineering – always setting the benchmark because it is based on much more than engine power. This is the tradition behind BMW EfficientDynamics. It includes the visionary CleanEnergy hydrogen-powered engine, already used in a number of completely emission-free BMW 7 Series saloons. Also going into production soon is the BMW ActiveHybrid – an intelligent, demand-oriented engine combining combustion and electronics. And every BMW already includes a technology package as standard that boosts dynamics even further whilst simultaneously reducing fuel consumption and CO₂ emissions.

High Precision Injection

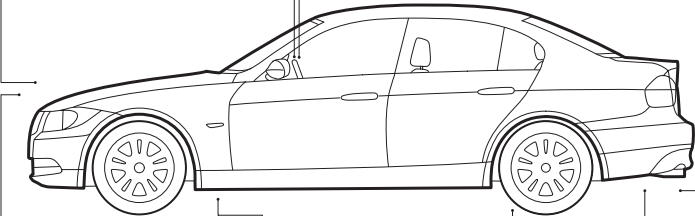

In this cutting-edge generation of petrol direct injection, the Piezo injectors are positioned very close to the spark plugs. They inject the fuel at high pressure and with extreme precision. The injectors' central positioning means only part of the combustion chamber needs to be filled with an ignitable petrol-air mixture. The engine can then run "leanly" (not for 335i) and so efficiently, precisely in the heavily used moderate load range. (318i, 320i, 325i, 330i, 335i)

Auto Start/Stop function

BMW four-cylinder engines with 6-speed manual transmission automatically shut down when the vehicle is stationary, for example at a red light or in a jam, when the driver activates the clutch and switches to neutral. The engine restarts as soon as the clutch is activated again. This innovation significantly reduces fuel consumption especially in city traffic. (318i, 320i, 318d, 320d)

Shift Point Display

Timely gear shifts are one of the most effective and easiest ways to save fuel. This is where Shift Point Display in conjunction with 6-speed manual transmission comes in. It shows the driver what gear to use in order to save fuel. (all models)

Air vent control

Engine management signals the engine's current cooling capacity requirements constantly while driving. Rendering a permanent airstream through the radiator unnecessary. The air vents in front of the radiator open or close depending on the environmental temperature and road speed. When shut they improve aerodynamics, shorten the engine's warm-up time and so reduce fuel consumption. (318i, 320i, 325i, 330i, 318d, 320d, 325d, 330d)

Electrical steering

In comparison with conventional, hydraulic steering systems, the electrical steering only uses energy during actual steering. When the steering wheel position is constant – for example at high speed along the motorway – the electronic motor is inactive. (318i, 320i, 325i, 330i, 318d, 320d, 325d, 330d)

Tyres with reduced rolling-resistance

While driving, tyres are constantly changing shape. This uses up energy and thus fuel. Tyres with reduced rolling-resistance have an improved design and use special materials for their road treads and side walls, thus reducing deformation. (all models)

Brake Energy Regeneration

To supply a battery with electrical energy, the generator (alternator) is customarily driven using engine power, which demands permanent fuel consumption. Brake Energy Regeneration means the generator usually only generates electricity when the driver either takes the foot off the accelerator or brakes – previously unused kinetic energy is transformed in coasting mode into electrical energy before being fed into the battery. In this way, electricity is generated while coasting, without consuming fuel. (all models)

Individual BMW EfficientDynamics features may be excluded, depending on the optional equipment chosen. Your BMW partner will be pleased to provide you with more information.

And this is what's come out of it.

BMW already offers 21 models with CO₂ emissions of 140 g/km and significantly less. But that's just for starters. We're carrying on our research – in the quest to bring you more driving pleasure and less consumption.

BMW EfficientDynamics.

■ Standard equipment

□ Optional equipment

□ **Xenon headlights for low and high beam, including four parking light rings** and automatic headlight range control, provide much better illumination of the road ahead at night or in poor visibility.

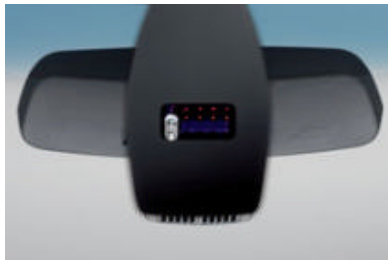

□ **Adaptive Headlights** for improved visibility in bends: headlights are directed into the bend when cornering (only available with Xenon headlights).

Headlight washing system ensures optimum headlight brightness in all kinds of weather. When the lights are on, the headlights are automatically cleaned in parallel with the windscreen (included with Xenon headlights).

■ **Ornamental front grille** with special surround and chrome kidney grille slats. Models with four-cylinder in-line engines (318i, 320i, 318d and 320d) come with the kidney grille slats in Black.

□ **Rain sensor with automatic driving lights control:** Once activated, the rain sensor will automatically switch on the windscreen wipers when it begins to rain, adjusting the wiper frequency in line with rainfall intensity. The integrated automatic driving lights control will switch on the low beam automatically at dusk and in tunnels.

□ **High-beam assistant** supports the driver at night by automatically switching to low beam when there is oncoming traffic or another car ahead, or when the road is sufficiently illuminated.

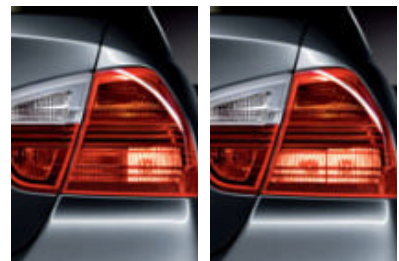

■ **Door sill finishers** with polished chrome inlay.

□ **Park Distance Control (PDC)**, for front and rear or rear only, facilitates the process of parking and manoeuvring in confined spaces, giving you an acoustic signal for the distance between your car and an obstacle. In conjunction with the navigation system, PDC will also provide a visual indication on the monitor display.

□ **Trailer tow hitch**, incl. trailer stability control, with electric unlocking via a switch in the luggage compartment. If the trailer hitch is not needed, it can be folded away mechanically.

■ **Brake Force Display** helps vehicles travelling behind you to evaluate your braking more accurately: in the event of an emergency stop, the illuminated area of the brake lights is increased. So traffic travelling behind can tell in an instant the difference between a light tap on the brake pedal and a hard stop.

■ Standard equipment

□ Optional equipment

■ **Steel wheels with full wheel covers**, 7 J x 16", 205/55 R 16 tyres (standard on 318i, 320i, 318d and 320d).

□ **BMW light-alloy wheels** double-spoke styling 156, 7 J x 16", 205/55 R 16 tyres (standard on 325i).

□ **BMW light-alloy wheels** double-spoke styling 268, 7 J x 16", 205/55 R 16 tyres.

□ **BMW light-alloy wheels** star-spoke styling 155, 7 J x 16", 225/50 R 16 tyres.

□ **BMW light-alloy wheels** star-spoke styling 158, 8 J x 17", 225/45 R 17 tyres (standard on 330i, 335i, 325d, 330d and 335d).

□ **BMW light-alloy wheels** star-spoke styling 159, 8 J x 17", 225/45 R 17 tyres.

□ **BMW light-alloy wheels** radial-spoke styling 160, 8 J x 17", 225/45 R 17 tyres.

□ **BMW light-alloy wheels** double-spoke styling 161 with mixed tyres, 8 J x 17" wheels and 225/45 R 17 tyres at the front, 8.5 J x 17" wheels and 255/40 R 17 tyres at the rear.

□ **BMW light-alloy wheels** ellipsoid-spoke styling 162 with mixed tyres, 8 J x 18" wheels and 225/40 R 18 tyres at the front, 8.5 J x 18" wheels and 255/35 R 18 tyres at the rear.

■ Standard equipment

□ Optional equipment

■ **Standard steering wheel** (375 mm diameter), three spokes.

□ **Leather steering wheel** (375 mm diameter), three spokes, incl. gearshift lever handle with chrome trim and handbrake lever handle finished in leather (standard on 330i, 335i, 330d and 335d). Shown here with multifunction buttons.

□ **Leather sports steering wheel** (369 mm diameter), three spokes, incl. gearshift lever handle and steering wheel with chrome trim and handbrake lever handle finished in leather, multifunction buttons for remote control of radio/telephone (both optional); also available without multifunction buttons.

□ **M leather steering wheel:** Provides excellent grip due to its thicker rim. The integrated (optional) multifunction buttons can be used to operate the radio, CD player and telephone (if present).

■ **Start/Stop button** for starting the engine. After inserting your ignition key, you can start and stop the engine by pressing this button.

□ **Cruise control** stores any desired speed upwards of approx. 30 km/h and maintains it, indicating it on the instrument panel. After accelerating, the system automatically returns to the pre-set speed. Braking deactivates this function. The six-cylinder models come with an additional braking function.

□ **Active Cruise Control** enables comfortable driving at a pre-selected speed. When driving in columns of traffic, your BMW automatically adapts to the speed of the preceding vehicle and uses its radar sensor to maintain a preset distance. (Only available for six-cylinder models.)

■ **Instrument panel** with analogue indicators and red backlighting, speedometer with integrated fuel level display, rev counter with fuel consumption display, LC display for total and trip mileage counter, outside temperature display and clock.

■ **On-board computer** displays information about average speed, average fuel consumption and range.

■ **Shift Point Display*** tells you when you could save fuel by switching to a different gear. The system alerts you when you should shift up or down, and adapts its recommendations to your driving style. When accelerating, for example, the system will tell you when to shift up to the next gear in order to continue accelerating with the minimum expenditure of fuel.

■ **Auto Start/Stop display** in the Info Display indicates when the engine has been turned off by the Auto Start/Stop function (e.g. when waiting at a traffic light or in congestion). The display goes off when the engine automatically restarts. (For all four-cylinder models with manual transmission.)

□ **Navigation system Business¹**, incl. DVD drive, iDrive Controller, functional bookmarks and MP3 decoder. Directions are given via maps and arrows displayed on a 6.5" monitor. Additional function: independent ventilation.
 □ **Navigation system Professional¹** (shown here), same features as Business; plus CD drive and 8.8" monitor with 3D map display.

□ **TV function.** The 8.8" display can be used as a TV set while the vehicle is stationary. Enables reception of terrestrial TV programmes in analogue and digital (DVB-T) format (only in combination with navigation system Professional¹).

□ **Auxiliary heating with remote control** – ideal in winter and on cold days. When you get into your car, the windows are already free of ice, and the interior is cosy and warm.

■ **Air conditioning**, incl. micro filter and air re-circulation switch, ensures comfortable climatic conditions in the vehicle interior at any time of the year, with manual adjustment of air volume and distribution.

□ **Automatic air conditioning**, incl. AAR, micro filter, fogging and solar sensors and residual heat button, rapidly provides the desired climatic conditions in the vehicle interior and maintains the selected temperature. With individual temperature control at the front (left/right) and climatized storage compartment in the centre console, incl. rear air vent and air conditioning.

■ **Radio BMW Business CD**, 4-channel amplifier, aerial diversity, MP3 decoder, scan function, CD drive, six loudspeakers, automatic volume control, with four tweeters and two central woofers under the front seats.

□ **Radio BMW Professional**, same features as BMW Business CD, additional connection for CD changer and two-line display.
 □ **DAB-Tuner** for receiving additional digital audio programmes.

* For vehicles with six-speed manual transmission.
¹ Navigation system not available in all countries. Please consult your BMW partner.

■ Standard equipment

□ Optional equipment

□ **HiFi loudspeaker system** with ten loudspeakers for brilliant sound.

□ **HiFi System Professional LOGIC7** provides truly outstanding sound. 13 loudspeakers and the adjustable surround function create a luxurious soundscape all around you. The central bass concept using subwoofers makes for an authentic bass sound.

■ **BMW Individual High-End Audio System** features extraordinarily high-performance speakers with exclusive neodymium magnet drivers that create an acoustic experience comparable to a live concert. Volume and equaliser settings adjust automatically to the vehicle speed (available for the six-cylinder models).

■ **AUX-IN socket** for an external audio source such as an MP3 player.

□ **USB/audio interface** enables connection of a USB stick or MP3 player. Music titles stored on this are displayed on the radio display or Control Display (if a BMW Navigation system is fitted). Controlled via multifunction steering wheel, Radio Professional or iDrive Controller. Includes iPod pocket in the front armrest.

□ **Preparation for mobile phone with Bluetooth interface**, including hands-free facility, connection for charger and outside aerial. A separately available snap-in adapter enables connection of a Bluetooth-compatible mobile phone, which can also be operated via the iDrive Controller (in conjunction with navigation system). For mobile phone options contact your BMW partner.

■ **Front armrest**, folding, with integrated storage compartment.

□ **Front armrest**, with individual adjustment (shown above).

■ **Window lifts**, electric, at the front and rear, pull/press switch with open/close fingertip control, comfort opening/closing function and trap release on all windows.

■ **6-speed manual transmission** for a very sporty drive. Smooth, with perfect ratios and precise, short-throw gearshifts. The addition of a sixth gear and the reduced spacing of gear ratios mean that you can make even more individual use of the engine power provided (not available on 335d).

□ **6-speed automatic transmission** with Steptronic and ATM (Adaptive Transmission Management). The gearshift mechanism enables very fast, immaculate gear changes – for truly dynamic performance (standard on 335d, not available on 318d).

□ **Sports leather steering wheel with gearshift paddles** for a sporty gearshift experience – without taking your hands off the wheel (available for all six-cylinder models, only in combination with 6-speed automatic transmission).

□ **M leather steering wheel with gearshift paddles** (available for all six-cylinder models, only in combination with 6-speed automatic transmission).

■ Standard equipment

□ Optional equipment

■ **Standard seats** (shown here in optionally available Dakota leather Grey) with manual seat adjustment, including seat height adjustment for driver and front passenger seat.

□ **Seat adjustment, partly electric**, for front seats, with electric seat height and backrest adjustment and manual adjustment of fore/aft position and seat angle.

□ **Seat adjustment, electric**, functions as for partly electric adjustment, plus electric fore/aft and seat angle adjustment, and memory function for driver's seat and exterior mirrors (incl. automatic parking function).

□ **Seat heating** for driver and front passenger (three settings): seat surface, sides and backrest are heated and quickly radiate comfortable warmth.

□ **Sports seats** for driver and front passenger (shown here in optionally available Dakota leather Beige). Optimum lateral support is ensured by continuously variable electric backrest width adjustment. Seat height, backrest and seat angle as well as thigh support are manually adjustable.

□ **Lumbar support for driver and front passenger**, electrically adjustable horizontally and vertically, for ergonomically perfect seat position and support of the back muscles.

□ **Storage compartment package** with luggage nets on front seat backs (standard on six-cylinder models), two fold-out cupholders at the front and storage compartments on the driver's side and in the rear. Two 12 V sockets complement this package.

■ Standard equipment

□ Optional equipment

□ **Glass sliding/vent roof**, electric, with wind deflector and comfort opening function via the car's remote control unit, includes reading lights at the front and illuminated vanity mirrors.

□ **Interior mirror**, incl. front reading lights, with anti-glare function and large surface area. The glare from following vehicles is automatically reduced when the amount of incident light exceeds a defined limit.

□ **Garage door opener**. This self-teaching remote control unit enables you to open and close your garden gate or garage door from within your vehicle.

□ **Alarm system**: In the event of an attempted break-in or any tampering with the vehicle, the alarm system emits an acoustic signal and immediately switches on the hazard warning lights.

□ **Comfort access system** for opening and locking the vehicle without having to operate the radio remote control. It's enough to have the ignition key in your pocket, briefcase or handbag. In addition, the engine can be started without the need for a key, using the Start/Stop button.

■ Standard equipment

□ Optional equipment

□ **Luggage compartment package** including luggage compartment floor net, 12 V socket, segmentable underfloor storage bin, bag holder, waterproof folding box and a pull-out drawer under the rear shelf. If the drawer is not required, it is quick and easy to remove.

□ **Rear seat backrest**, with asymmetric 60/40-split folding option. Each section can be folded down separately (in conjunction with through-loading system).

□ **Through-loading system** with asymmetric 60/40-split folding backrest, including rear centre armrest, two rear cupholders and ski bag.

□ **Ski bag** (in conjunction with throughloading system) for clean and safe transportation of up to four pairs of skis with up to four people on board. If the ski bag is not required, you can save more space by tucking it away out of sight.

□ **Two rear cupholders**, integrated into the centre armrest (in conjunction with rear centre armrest). (Standard on six-cylinder models.)

□ **Two cupholders at the front** (in conjunction with storage compartment package), integrated into the dashboard.

□ **Sunblind for rear window**, electric, deflects intense sunlight and provides effective protection from prying eyes.

□ **Sunblinds** for rear side windows, mechanical.

□ **BMW Welt:** Taking delivery of a car has always ranked among the best moments for any car driver. Now that moment can become a truly unforgettable day – at the new BMW Welt, the experience and delivery centre in Munich, Germany. Visit the Museum, tour the plant or explore the Technology studio: BMW Welt brings you the true fascination of BMW. Experience more online at www.bmw-welt.com.

■ Standard equipment □ Optional equipment

□ **M sports package:** The special aerodynamics package makes for a visually consistent exterior, with a choice of two BMW light-alloy wheels. The tuned M sports suspension and high-gloss Satin Chrome complement this look. In the interior, sports seats with exclusive cloth/Alcantara upholstery, the M leather steering wheel, Aluminium Glacier Silver interior trim and an Anthracite roofliner create an equally dynamic ambience. The finishing touches are provided by the M door sill finishers, M footrest and shortened shift lever knob. In addition, the exterior colour Le Mans Blue metallic is available exclusively with the M sports package.

Front air dam: Bigger air inlets and a very distinctive design make for an even more muscular look. The air inlets also help cool the brakes.

■ Standard equipment □ Optional equipment

M leather steering wheel: Provides excellent grip due to its thicker rim. The integrated (optional) multifunction buttons can be used to operate the radio, CD player and telephone (if present).

Aluminium Glacier Silver, fine-grain interior trim: The sporty look of this trim emphasises the dynamic character of the M sports package.

Sports seats: For optimum lateral support. The exclusive Blue Shadow cloth/Alcantara upholstery underlines the high-quality appeal of this equipment option.

BMW light-alloy wheels double-spoke
194 M with mixed runflat tyres: 8 J x 17" wheels and 225/45 R 17 tyres at front, 8.5 J x 17" wheels and 255/40 R 17 tyres at rear.

□ **BMW light-alloy wheels star-spoke**
193 M with mixed runflat tyres: 8 J x 18" wheels and 225/40 R 18 tyres at front, 8.5 J x 18" wheels and 255/35 R 18 tyres at rear.

Rear apron: The integrated diffuser increases the downforce acting on the rear wheels. A sporty look that also enhances ground contact at high speeds.

All dimensions in millimetres. Luggage compartment capacity (as per VDA standard): 460 litres (16.2 cu ft), for 335i and 335d: 450 litres (15.9 cu ft).

¹ The figure quoted includes a 90 per cent tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

² The overall weight of the trailer may not exceed the maximum permissible trailer load plus the maximum permissible towbar download.

³ The petrol engines are designed for RON 98 fuel. They may be run on RON 95 or RON 91 fuel (335i: not less than RON 95) with a decrease in engine power.

⁴ All engines meet the EU4 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle made up of approximately one third urban traffic and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption.

⁵ Electronically limited.

⁶ Comes with six-speed automatic transmission as standard.

Values in [] apply to vehicles with six-speed automatic transmission.

All optional equipment in this catalogue is available fully installed ex works. For any additional wishes you may have, please see our comprehensive Accessories Catalogue, available from your BMW partner, who will be happy to advise you.

BMW Recycling.

Your BMW is the product of a comprehensive recycling concept. But what exactly does that mean in practice? It means that all the requirements of recycling are taken into account from the start, in the initial development of a BMW. One example is careful material selection designed to preserve resources and to ensure efficient recycling compatible with the environment. Each BMW is designed and built for simple and economic recycling after its long running life. Since 1994, we have been collecting the know-how required for this purpose at the unique BMW Recycling and Dismantling Centre (RDC) near Munich. At the same time, the BMW Group is establishing a complete network of vehicle recycling facilities within Europe, focusing in the process on the high standards of quality and environmental care that BMW is renowned for. Please contact your BMW partner on all matters regarding your end-of-life vehicle. They will be happy to help.

The models illustrated in this brochure show the specifications for the German market. In part, they include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets, alterations in models, standard and optional equipment, as described in the text and illustrations, may occur. For precise information, please contact your BMW partner. Subject to change in design and equipment. © BMW AG, Munich/Germany. Not to be reproduced wholly or in part without written permission of BMW AG, Munich.
